Cigarette

The innovative 41' Nighthawk is designed to let you travel in true Cigarette style. The Nighthawk offers the latest Cigarette design language, with its all new hard top. Loaded with the latest technology, the Nighthawk is as luxurious as it is thrilling to drive. Cigarette proves yet again that high performance and comfort do not have to be mutually exclusive. The 41' Nighthawk provides direct, unadulterated, performance combined with the comfort that is like no other center console.

LENGTH: 41'

BEAM: 11'

HEADS: 1

FUEL TYPE: Gas

FUEL CAPACITY: 350 Gal.

FRESH WATER TANK: 25 Gal.

Engine Details ———

- 4X Mercury 500Rs
- 4X Mercury 400R V10s
- 5X Mercury 500Rs
- 5X Mercury 400R V10s

Twin-Step Hull Design ———

The Nighthawk draws on Cigarette's advanced- engineered twin-step hull design to match unprecedented performance with unyielding comfort. A low, aggressive center of gravity and an all carbon-fiber hardtop design further improves handling, while intelligent use of composite materials and proprietary construction techniques improve vibration dampening and structural integrity for enhanced comfort in even the most compromised conditions.

Advanced Helm ———

The helm features three 17" Garmin flush mounted to an instrument panel CNC cut from a solid block of aluminum. The nano-coated instrument panel is resistant to heat, reflections and fingerprints, and the perimeter of the panel is lit by RGB LED accent lighting to provide a distinct glow, creating the illusion that the dash is floating. The helm integrates cup holders and two gloveboxes. Passengers can feel secure with the stainless steel grab bars and be in total comfort with an ergonomic CNC machined footrest.

Digital Switching & Automation ———

The Nighthawk features a state of the art digital switching system, making control of vessel functions a breeze. This offers simple control of all systems on board, including automatic sequential engine starting with the push of a single button.

Lighting Without Limits ———

Enjoy full-spectrum RGB zoned lighting - all controlled from the Garmin multifunctional displays. A digitally controlled RGB ambient lighting system powers LED lighting throughout the deck with near infinite color variations. This technology extends seamlessly into an underwater RGB system with full spectrum control to create the perfect ambiance for a night out on the water. Additionally, it includes high powered LED down lights in the hardtop, along with red captain's lighting that provides general and night task lighting.

JL Audio x Cigarette Racing ———

For the finest marine sound systems, Cigarette relies on the leader of the industry, JL Audio Marine. Their products meet Cigarette's pressing demand for audiophile quality systems that can withstand the rigors of the wind, sea and open cockpits. These sound systems are tested on each model to ensure they are appropriate for the boat size and seating configuration in order to provide a pleasing Cigarette Racing experience.

Garmin x Cigarette Racing

When two iconic brands collaborate, the result is rather exciting. As the first manufacturer to be Garmin-Certified, Cigarette has proudly partnered with Garmin to feature state-of-the-art technology and design to give our owners the most ergonomic and intuitive resources to make a day out on the water easy, fun and safe. The optional Garmin Convenience package places a 9" multifunctional display at the aft conversational area and bow section, for additional control points of digital switching, media, and navigation. No need to get up, just tap the screen!

An Athletic Hardtop

Its sculptured form creates an athletic disposition, alluding to the capabilities of this puristic center console. The four-pillar exclusive hardtop was skillfully engineered to provide a lower center of gravity to improve performance and comfort without compromising a beautiful design aesthetic. The four-pillar, all carbon-fiber hardtop features a wide, double-curvature, frameless clear-laminated safety glass windscreen offering exceptional wind protection. It includes integrated flood lights, boarding handrails, full-spectrum ambient lighting, as well as an optional electrically actuated sunshade, make this a pronounced and puristic center console.

Sunshade

The Nighthawk hardtop offers an optional electrically actuated sunshade. At the press of a button, the shade will cover the aft entertainment area. All done and ready to get underway? Simply press the “shade in” button on your Garmin display and it will retract into the hardtop.

Comfort & Layout

The all-new upholstery takes the hand-crafted Cigarette upholstery to a whole new level with multi-layered foams and highly detailed quilted patterns. The Cigarette “Cool Touch” Fabric upgrade allows for dark colors to be used in sunlight while the fabric remains cool to the touch.

Cabin Overview —

The cabin offers over 6' of headroom, luxurious cabinetry, a bed, storage, sink, and a vacu-flush head. Even a purpose-built day-boat should have a place to rest your head for a nap - and the Nighthawk offers just that.
