LENGTH: 38'

BEAM: 8 ft

HEADS: 1

FUEL TYPE: Gas

FUEL CAPACITY: 238 Gal.

# Engine Details

- Twin Mercury Racing 600SCI  
With Bravo XR Drives
- Twin Mercury Racing 565  
With Bravo XR Drives

# Cockpit

The 38' Top Gun is as relevant today as it was at inception over 30 years ago. Through constant refinement, yet never straying from its heritage, the current build sports larger radiuses and smoother lines reflecting advanced engineering specifications for enhanced comfort and performance, while the interior consoles have been modernized to better accommodate the driver needs and preferences. Whether you prefer a more sporty experience or traditional arrangement, the new 38' Top Gun has you covered.

# Craftmanship ———

We've carefully engineered every detail of the 38' Top Gun to optimize component placement and material use throughout the vessel to enhance strength, durability, reliability and performance at every turn. From the hand laid fiber hull and meticulously laid out bulkheads to the intricately embroidered upholstery, our quality control measures and dedication to excellence makes every Cigarette a work of art.

# Cabin ———

Whether taking a break from the sun or taking a quick call, the 38' Top Gun provides a cover girl cabin layout with hand stitched seating, composite storage cabinet, a custom built dual compartment cooler, dynamic LED lighting and a hydraulic cabin door with integrated steps for easy access.

# Helm ———

The 38' Top Gun is synonymous with speed and precision, which means the driving and passenger experience is comfortable and efficient. Mercury Marine DTS Throttles and Shifters surrounded by carbon fiber dash panels, gauge clusters with 8" high definition touch screen Garmin 7608, LED digital Trim tab, and drive indicator make driving precise and effortless. Add in a premium JL Audio system with Bluetooth integration and Garmin interface to make the 38' Top Gun a true beauty and a beast.

# JL Audio x Cigarette Racing ———

For the finest marine sound systems, Cigarette relies on the leader of the industry, JL Audio Marine. Their products meet Cigarette's pressing demand for audiophile quality systems that can withstand the rigors of the wind, sea and open cockpits. These sound systems are tested to ensure they are appropriate for the boat size and seating configuration in order to provide a pleasing Cigarette Racing experience.

# Lighting ———

Advanced lighting options, with intuitive controls and variable color options can be found throughout the cockpit and cabin to set the mood just right for any occasion.

# Classic Style, Evolved Technology ———

While the Top Gun classic aesthetics remain - only those who evolve can remain true to themselves and the 38' Top Gun is no exception. We conduct focused research and development to continuously improve the vessel in every respect. The Top Gun is designed to work harmoniously with Mercury Racing's power plants, so power is effortlessly transferred to the water. The composite structures have all been refined for lighter-weight, greater durability, and better acoustics, keeping the hull quiet so the sounds of the sea and engines may be better enjoyed. A classic, evolved.

# Included Options ———

## COCKPIT

- Powered CNC Machine Billet Bolsters Stainless Steel Helm
- Carbon Fiber Gauge Cluster with Cigarette Logo
- Mercury Vesselview 903 9" Display
- JL Audio Pure Plus with Garmin Interface
- Ergonomic Billet Footrests with Rubber Tread
- Cigarette Custom Painted Fiberglass Bolster Backs
- Soft Deck Flooring
- Mercury Marine DTS Throttles & Shifters
- Carbon Fiber Dash Panels
- 12" HD Touch Screen 8612 with Depth Finder
- LED Digital Trim Tab & Drive Indicator
- Cigarette Upholstery Embroidery Package
- CNC Machined Billet Grab Handles
- Dash Controlled Battery Switches
- Cockpit Cover
- Shore Power
- Coast Guard Safety Kit - Excluding Life Jackets
